# Treat arthritis, not just its symptoms.

Adequan i.m.<sup>®</sup> (polysulfated glycosaminoglycan) is unlike any other equine joint product.\* For over 30 years, it's been used by veterinarians to help horses of every discipline and level enjoy greater mobility over their lifetimes.<sup>1-3</sup>

Please see Adequan i.m. Indications and Important Safety Information below.

\*Adequan i.m. is the only FDA-approved PSGAG for equine DJD.

Adequan i.m. has been proven to work in **multiple ways** to maintain joint function:<sup>2,4</sup>

REDUCE  
inflammation

RESTORE  
synovial joint lubrication

REPAIR  
joint cartilage

REVERSE  
the disease process

## Ask your veterinarian if Adequan i.m. is right for your horse.

**Adequan<sup>®</sup> i.m.** polysulfated glycosaminoglycan (PSGAG) solution 100 mg/mL

### INDICATIONS

Adequan<sup>®</sup> i.m. is recommended for the intramuscular treatment of non-infectious degenerative and/or traumatic joint dysfunction and associated lameness of the carpal and hock joints in horses.

### IMPORTANT SAFETY INFORMATION

There are no known contraindications to the use of intramuscular Polysulfated Glycosaminoglycan (PSGAG). Studies have not been conducted to establish safety in breeding horses. **WARNING:** Do not use in horses intended for human consumption. Not for use in humans. Keep this and all medications out of the reach of children. **CAUTION:** Federal law restricts this drug to use by or on the order of a licensed veterinarian. Please see full Prescribing Information at [adequan.com](http://adequan.com).
