

**Hello,**

My name is Taylor Hammett and I am very glad to be working with you as your Inside Sales Equine Specialist with Midwest Veterinary Supply! Midwest is a full-line, family & employee owned veterinary supply distributor and has been part of the veterinary industry since 1961. I am grateful to be working with you and look forward to growing business together in the Southeast.

Originally from Central Texas, my love of horses was fostered from a young age. Some of my fondest early memories are visiting my grandfather on his ranch and riding horses all over his property. I have been fortunate to own my mare, Saratoga, since 2005. I completed my Bachelor of Science degree in Animal Science at Texas A&M University before going on to work for the State of Texas as an agriculture policy analyst for a state senator. I then relocated to Manhattan, Kansas where I earned my Master of Science degree in Comparative Animal Nutrition. While in Manhattan, I spent the majority of my time conducting research studies and teaching an animal nutrition lab to undergraduate students. My research focused on equine and bovine nutrition and equine nutritional immunology. Now as a resident of the Southeast, I divide my free time between trail riding with Saratoga, hiking local trails with my husband, and antiques.

Based in Midwest's branch in Birmingham, AL, I am thrilled to be your equine specialist. I look forward to building a working relationship with you and serving as a resource for excellent customer service, high-quality products, and competitive prices.

**Sincerely,**

**Taylor Hammett**
